

Turtle Island Corporation Earns Highest Possible Rating from Both Charity Navigator and Candid's GuideStar

June 20th, 2024

Turtle Island Corporation is thrilled to announce that we have earned the highest possible ratings from both Charity Navigator and Candid's GuideStar, two of the most respected charity resource organizations. These new accolades highlight our unwavering dedication to turtle and tortoise conservation, as well as our steadfast commitment to running a non-profit organization that is transparent and accountable.

Charity Navigator, America's largest and most widely used independent charity evaluator, has awarded Turtle Island Corporation a 4-star rating. This prestigious rating is based on a comprehensive analysis of the organization using three key indicators: impact and measurement, accountability and finance, and leadership and adaptability. Being designated a "Give with Confidence" charity affirms our commitment to transparency and trustworthiness.

Candid's GuideStar, the world's largest source of information on nonprofit organizations, has awarded Turtle Island Corporation with the Candid Platinum Seal of Transparency. This is the highest level of recognition that Candid awards. This award is the result of a rigorous evaluation of Turtle Island's strategies, goals, capabilities, and progress, building on our achievement of the Bronze, Silver, and Gold Seals.

We hope that this recognition will help introduce our turtle and tortoise conservation efforts to a broader audience, enabling us to further our mission of protecting the world's most endangered and overlooked turtle and tortoise species.
